Machine learning • Editing • Marketing •
Creativity • Fluency • Punctuality •
AI specialist

SUMMARY

I always had a passion for video editing and programming ever since I got my first computer. What once was a random hobby is now something I am passionate about and love. I decided to pursue my passion and study Computer Science at BRACU, where I am learning the fundamentals of programming to learn the language of computers. Don't hesitate to contact me if you ever need a video editor for your videos, a programmer to help you in your projects or a gaming buddy. I'm always up for a challenge and a chat.
